- (a) Presentation on Proposed Update to Master Fee Schedule. (Interim Finance Director) (View here)
- **3.** <u>ADJOURNMENT</u> the next regularly scheduled meeting is Tuesday, July 18, 2023 at 7:00 p.m.

#

STAFF REPORT

TO: HONORABLE MAYOR AND COUNCIL MEMBERS

FROM: Nitish Sharma, Finance Director (Interim)

DATE: June 26, 2023

SUBJECT: Presentation on Proposed Update to Master Fee Schedule

RECOMMENDATION

Receive a presentation and provide feedback/direction to staff related to the proposed update to the master fee schedule.

BACKGROUND

Revenue from fees and charges represents about \$405,977, or 5.9%, of the City's total operating revenue. Accordingly, each year departments review their fee schedules as they relate to their costs for providing regulatory activities, products, and services. Any proposed fee adjustments are brought forward to Council for consideration.

The City's fee program has three key principles: (1) avoidance of large increases from time to time by adopting smaller annual increases; (2) establishment of fees that are reflective of the City's actual costs and/or are reasonable as determined by similar municipalities/code; and (3) ensure communication of our policies and programs to developers to foster understanding and feedback.

ANALYSIS

Since the passage of Proposition 26, (1) fees cannot exceed the cost of providing services; and, (2) individual customers paying for these fees cannot be charged for more than the services they receive, meaning they cannot be overcharged to subsidize fees for other customers. Included in the analysis of each of the proposed Book of Fees changes below is an explanation of the proposed change in compliance with Proposition 26.

A. Citywide Fee Reimbursement Recovery Rate: A huge part of the fee update is the calculation of the fully burden labor rate. The proposed cost of labor reimbursement rate is developed based on salaries and benefits, operations and maintenance to support the

delivery of services, and the administrative overhead to support the departments delivering the services. Each of the components of the fully burdened labor rate analysis is described below:

1. Salaries and Benefits: The City team and the consultant have developed a labor cost analysis based on the current employee census data file. This census data file includes employees title, salary/wages, healthcare benefits and each of the different add pays. The census data file also includes any compensation or benefits (compensatory) as part of the labor agreements. Table 1 below illustrates the base salary/wages (top step) and the benefits plus other special pays as part of the City's compensation plan. The base salary/wages is City's the salary/wages information posted based on on the website (https://claytonca.gov/fc/human-resources/Salary%20Schedule%20FY23 REVISED.pdf).

2. Operating Expense Multiplier: Each Department has operating expenses that support the delivery of services. As part of the analysis, the operating expenses are distributed to each department based on the type of services provided. For example, the Finance Department provides support to Community Development Department to manage and record fees, process accounts payables, payroll and other functions as deem appropriate and reasonable. Only a portion of the Finance Department costs can be applied to the Community Development as the Department supports other functional areas of the City. The type of expenses included in this category are listed below:

- General Supplies
- Books/Periodicals
- Dues and Subscriptions
- Telecommunications
- Travel/Training
- Conferences/Meetings
- Education & Training
- Recording Fees
- Legal Notices
- Legal Services (if related to fees, these costs are billed directly to the vendor)
- Other Professional Services (if related to fees, these costs are billed directly to the vendor)
- Unemployment Compensation
- Recruitment/Pre-employment
- Office Supplies/Expense
- Postage
- Printing and Binding
- Rentals/Leases Copiers and Other Equipment
- Telecommunications/Technology Expenses
- Insurance Premiums as allocated to different departments
- Employee Recognition

3. General Support Services Cost Multiplier: The General Support Services includes the costs from the Administrative Services Department to support the Departments delivering the services. Only the portion of the Administrative Services Departments costs are allocated using the percentage of the fee revenues received when compared to the total revenue budget. The type of expenses included in this category are listed below:

- Regular Salaries
- Temporary Salaries
- Overtime
- Long/Short Term Disability Insurance
- PERS Retirement-Normal Cost
- Workers' Compensation
- Unemployment Compensation
- FICA Taxes
- Benefit Insurance
- Materials and Supplies
- Training and Education

B. Community Development Fees

The Community Development fees includes some fees that are charged to the initial deposits received from the project applicant. There are other fees that have direct fee charge upon submission of the permit application. The proposed fees for the Community Development are attached for the Committee consideration.

C. Police Department Fees

The Police Department fees are only charged if the services are provided and benefits an individual or organization. Most of the police services are provided and funded from the general revenues (property taxes, sales taxes, etc.). A number of fees in this department are set by the regulatory agency and therefore, cannot be adjusted by the City Council.

D. Facility and Rental Fees

Facility and rental fees are based on the time utilized by the maintenance staff to ensure that the facilities are clean and ready for the next event.

E. Clayton Community Park Fees

Clayton Community Park Fees are charged for events or other functions that require a permit and reservation. These events require the services of the Maintenance Division and a portion of the Administrative Division to ensure that the park facility is clean and maintained.

F. Special Event Fees

The Special Event Fees are charged for events at different sizes. These events usually require significant staff resources and city own assets to meet the event requirements. The City has not been very active in this area when collecting fees related to special events. It is important to note that the City needs to develop a policy on special event applications to ensure that the definitions and intent of the fees adheres to the Councils goals and objectives. At a minimum, a pre-application meeting should be required related to special event fees. (The consultant is

presenting an initial basis for a discounted Clayton non-profit rate, but it is ultimately a policy decision about the level and breadth of such a discount).

Regarding the special event fee. The consultant analyzed a similar type of fee structure set in place at the City of Walnut Creek. Attachment 6.1 illustrates the fees charged by Walnut Creek.

G. Administrative Fees

Administrative Fees are allocated and charged to individuals or organizations receiving services that are not normally covered by the general revenues.

The City staff is estimating an annual increase of \$36,000 to the fee revenues based on the current year activities. The fee adjustments will help off-set the cost of providing services that benefits individual or certain organizations.

Environmental Considerations

Not applicable.

FISCAL IMPACTS

The estimate revenue from the adoption of these fees will increase the General Fund Budget by approximately \$36,000.
